# Signature Neutrals

Refined tones of beige and cool gray, the essential palette for serene, modern interiors.

## Imperial Beige

### Soft Harmony in Every Layer

Imperial Beige is a signature Omani marble known for its creamy beige base and soft fossil veining that brings quiet sophistication to every surface.

## Narcissus

### Cool Clarity with Modern Appeal

Narcissus is a refined Omani marble defined by its cool grey base and subtle fossil specks that create depth without overpowering the eye. It's an ideal choice for spaces that aim for clean lines, quiet luxury, and architectural precision.

## Sahara Beige

### Earth-Inspired Organic Warmth

Sahara Beige is a richly toned Omani marble that blends soft taupe hues with natural fossil patterns for a warm, grounded aesthetic. Its subtle texture and earthy character bring an organic rhythm to interiors, making it a favorite for balanced, welcoming spaces.

# Textured Elegance

Sculptural patterns and natural textures that bring movement, balance, and depth to sophisticated spaces.

## Desert Rose

Organic Warmth with Sculptural Beauty

Desert Rose is a uniquely expressive Omani marble marked by warm beige tones and soft, swirling fossil patterns. Its flowing character brings a natural, sculpted elegance to interiors, making each surface feel artisanal and full of life.

## Desert Oasis

Cool Balance with Subtle Character

Desert Oasis features a balanced blend of soft gray and warm beige, creating a gentle, layered look that suits both contemporary and classic interiors. Its fine fossil inclusions give it depth without distraction, making it a versatile base or accent in any setting.

## Elegant Grey

Structured Minimalism

Elegant Grey is a sophisticated Omani marble defined by its consistent grey tone and fine grain, offering a sleek and structured foundation. Its modern look is ideal for interiors that prioritize clarity, contrast, and architectural rhythm.

# Timeless Foundations

Creamy, luminous, and heritage-inspired stones designed to elevate minimal and classic environments alike.

## Nizwa Beige

Understated Luxury with Balance

Nizwa Beige blends sandy beige hues with fine fossilization to create a soft, balanced stone perfect for serene environments. Its quiet tone and refined grain make it a versatile choice for designers who want to maintain warmth without visual heaviness.

## White Pearl

Bright Simplicity with Lasting Elegance

White Pearl is a luminous Omani marble prized for its creamy white surface and delicate mineral detailing. It enhances light and space, offering a clean, elegant foundation that works across styles—from modern minimalism to soft classicism.

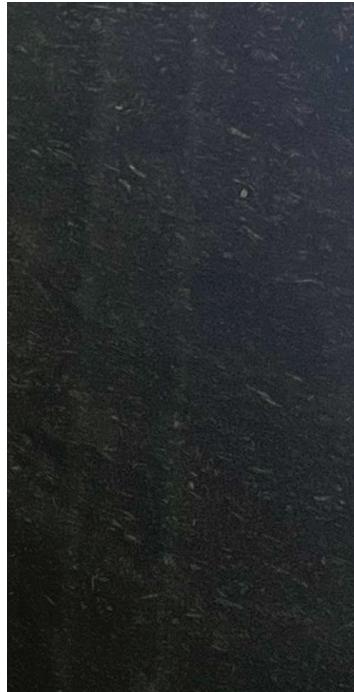

## Ibri

Traditional Beauty with Natural Depth

Ibri is a classic Omani marble known for its warm, creamy beige base and intricate fossil formations. Its heritage look, combined with natural depth, gives it a timeless appeal in both traditional and transitional spaces. Each slab holds subtle variations, adding authenticity and richness to any surface.

# Bold Statements

Dramatic contrasts and flowing veins — signature marbles that command attention and define luxurious expression.

## Dyno

Soft Harmony in Every Layer

Imperial Beige is a signature Omani marble known for its creamy beige base and soft fossil veining that brings quiet sophistication to every surface.

## Omani Black

Bold Sophistication

Omani Black is a dramatic marble with a deep, rich black base and delicate white veining that adds refinement and contrast. Its high visual impact makes it a go-to material for luxurious, high-end interiors with a strong identity.

# Crafted to Touch

Where texture meets intention

Finishes that elevate stone beyond the surface.

Leathered

A soft, organic texture that evokes natural aging, yet feels smooth to the touch. Rich in character, yet surprisingly modern.

Bush-Hammered

A bold, tactile surface created through mechanical chiseling. It provides anti-slip properties and visual drama, perfect for architectural statements.

Polished

A high-gloss, mirror-like finish that intensifies color and reveals the intricate veining of each stone. Ideal for refined interiors and luxury applications.

Ribbed

A linear, structured finish that adds architectural rhythm and tactile boldness. Its sculpted grooves play with shadow and depth, creating a striking visual identity.

Honed

Smooth and matte, the honed finish offers a soft touch and a muted look. It maintains elegance while reducing light reflection for subtle sophistication.

Sandblasted

A lightly roughened surface that enhances grip and delivers a consistent, matte tone. Balanced between safety and design clarity.
